Atyrau University named after Kh. Dosmukhamedov

DEPARTMENT OF ECONOMICS
IN THE 2021-2022 ACADEMIC YEAR, THE RESULTS OF THE WORK CARRIED OUT WITHIN THE
FRAMEWORK OF THE SCIENTIFIC SCHOOL "THEORY OF ENTREPRENEURSHIP AND THE LABOR
MARKET
Report

Atyrau – 2022

I. MAIN DIRECTIONS OF RESEARCH WORK OF THE SCIENTIFIC SCHOOL

- Improving the quality of training of specialists with higher education in accordance with the requirements of the market economy;
 - Increasing the labor force in the labor market and increasing labor mobility;
 - Formation of creative and professional thinking skills with the formation of scientific approaches to cognition and research;
 - Formation of a full-fledged participation of each student in the formation of a creative personality, in competitions in the field of scientific research and scientific creativity in accordance with the demand and target positions and opportunities for each;
 - Increase the activity of students in research skills in economic specialties;
- The formation of professional creative abilities of students and involvement in scientific and innovative research is to ensure the effective selection of capable, gifted and talented young people for future scientific work.

1. PREPARATION OF STUDENT PUBLICATIONS, REPORTS, ARTICLES ON RESEARCH TOPICS

Within the framework of the scientific school «Entrepreneurship and the labor market» of the Department of economics, students performed the following scientific research works.

Undergraduates and students of the department of economics took part in various international conferences organized both domestic and foreign, the data are presented in the tables below:

№	Full name of the author(s)	Title of the publication	Name of the journal, year, number, page.,ISSN

4. FORMATION OF INDEPENDENT SCIENTIFIC AND CREATIVE DECISION-MAKING AND COGNITIVE ACTIVITY

On March 15, 2022, in accordance with the plan of the Scientific School "theory of entrepreneurship and the labor market", created at the Department of economics of the Faculty of Economics and law of Atyrau University named after H. Dosmukhamedov, a round table was held with students of the 1st Year of educational orientation 6B04101-Economics in order to increase the activity of students in research skills in economic specialties. At this meeting, the first steps of students on the path of science were taken. The educational program 6B04101-Economics provides for theoretical, research, and practical training of students. Students were told that research training is of two nature: compulsory and voluntary. Performing written works on a specific topic in accordance with the educational program of a mandatory nature. Let's say it takes the form of writing an essay, performing case tasks, and project work. Students were told in September by advisors and curators at the curatorial hour

that if the required tasks are not completed, there will be problems such as non-admission to the exam, academic debt, retraining in the summer semester. And today's round table says that students voluntarily carry out scientific research at their own discretion. For example, writing articles, making reports at conferences, participating in international, national, regional, intra-university competitions of students' research work, participating in startup projects.

Starting from the second semester of the academic year, that is, having been accepted and adapted to the requirements of the University, the 1st year student will now begin to take a "scientific step". In this direction, we talked about how to make a report on the conferences that will be held in March-April. This is the role of the established scientific school, to guide young people who have just entered science, to provide scientific guidance for their research work.

5. PLANNING OF ADMISSION OF TEACHERS OF THE DEPARTMENT TO DOCTORAL STUDIES (GRANT, TARGET) AND MASTER'S PROGRAMS (GRANT, TARGET)

Senior Lecturer of the Department of Economics, Master Bisembieva Zhanargul Korganyshevna entered the Eurasian National University for a grant for a doctorate in economics.

6. PROMOTE THE PARTICIPATION OF TEACHERS OF THE DEPARTMENT IN FOREIGN LANGUAGE COURSES

	Full name	Theme	Time	Location	Hours	
1	Sabirova Rysty Kuandikovna	English course Pre-Intermediate	09/2021-05/2022	SHAKIRT a step to make the world better	108	Certificate

On April 7, 2022, within the framework of the Science Week, the Department of economics of the Faculty of Economics and law of Atyrau University named after Kh. Dosmukhamedov held a competition of projects on Business Ideas "Startup Festival" among students of the faculty and senior students of general secondary education organizations. The purpose of this competition is to create non-financial support for socially significant business initiatives of young people, that is, to participate in regional programs in the future. This event is one of the planned activities of the Scientific School "Theory of entrepreneurship and the labor market" of the department, promoting entrepreneurship among young people, developing the formation of entrepreneurial skills of young people.

The projects submitted for the competition were presented and defended before the commission. As a result, a student of the 11th grade of the Lyceum of 17 schools Anna Konkova Planetarium business plan 1st place, a student of the 10th grade of the general secondary school named after M. Auezov of Kurmangazy district Kubasheva Tahmina "tutoring services for Primary School students" 1st place, a student of the 10th grade of this school Engelsova Aruzhan "opening a pastry shop" 3rd place and students of the EP 6B04101-Economics Saifullina Aizhan, a business plan "taxi service" of Kurbaniyazova Tabassum 2nd place, business plan "Eco shopper" by Musalaeva Guleimat and Dyusembay Anel, student of the EP 6B04102 management in the industry 2nd place, Student Of The EP 6B04107-marketing Serikova Damira Mangilik Kalam business plan 3rd place was awarded with diplomas, students of the EP 6b04101-Economics Business Plan "Creative Studio" by Inkar Sandigaliyeva, business plan "business service for Videoconferencing" by Nauryzbayeva Aidana, Mizanova Ayagoz were awarded with letters of thanks.

9. ENCOURAGE THE PUBLICATION OF ARTICLES IN THE JOURNAL "BULLETIN OF ATYRAU UNIVERSITY NAMED AFTER Kh. DOSMUKHAMEDOV"

In the Bulletin of Atyrau university named after Kh. Dosmukhamedov, under the guidance of Associate Professor R. K. Sabirova, candidate of Economic Sciences, the following articles of undergraduates were published:

№ п/п	Full name of the author(s)	Title of the publication	Journal name, year, issue, page, ISSN
<i>Department of Economics</i>			
1	Saparova A. N., Srymova A. 7M04101-Business Analytics in Economics and management 2nd year undergraduates	Intellectual potential of innovative development of Kazakhstan	Bulletin of Atyrau University named after Kh. Dosmukhamedov №4 (55) 2021 P..105-110
2	Mamyrbekova Zh. 7M04101-2nd year master's student of Business Analytics in Economics and management	"Analysis of macroeconomic trends and future prospects of Kazakhstan under the influence of coronavirus"	Bulletin of Atyrau University named after Kh. Dosmukhamedov №1 (56) 2022 P..105-110
3	Alekseev N. 7M04101-2nd year master's student of Business Analytics in Economics and management	Intellectual potential of innovative development of Kazakhstan	Bulletin of Atyrau University named after H. Dosmukhamedov №4 (55) 2021 P..105-110

10. STRENGTHEN WORK TO INVOLVE FOREIGN AND DOMESTIC SCIENTISTS IN JOINT RESEARCH ON THE IMPLEMENTATION OF THE CURRICULUM

In recent years, the Department of economics of the Faculty of Economics and law of Atyrau University, as an international scientific and educational center, has been successfully implementing the advanced development strategy of the University. The process of internationalization at the Department of economics of the Faculty of Economics and law of the MBA is carried out through the admission of foreign students; invitation of foreign teachers; international academic mobility of students and faculty; inclusion of training courses in foreign languages in curricula and programs; development of network educational programs and two diploma programs; publication of scientific research results in foreign publications; involvement in cross-border networks and growth of international partnership at the strategic level. Teachers of the Department of Economics took part in the international scientific conference "strategic directions of economic cooperation between Azerbaijan and Turkey", organized by Yildiz Teknik University (Turkey), Sumgait State University (Republic of Azerbaijan).

Teachers of the Department of Economics spoke with the following articles:

1. R. K. Sabirova, M. D. Dingazieva – current state and development trends of vegetable growing in the dry farming region of Kazakhstan.
2. Otepkalieva K. M., Bekbolat I. A.-factors affecting the trend of shares of IPO-loving companies
3. Bakirbekova A.M.-improving the personnel policy of the enterprise in the face of uncertainty.

The international scientific conference was very large-scale and up-to-date, it is important to invite international experts, as well as young researchers who presented their section at the conference, who have experience in the development of the IOC and a principled discussion that accompanied the reports.

In general, we consider the experience of participating in the conference very positive and hope that the upcoming events will become even more relevant and successful!

Availability of international agreements concluded in the reporting year on scientific and technical cooperation with universities and research centers

12 ANALYSIS OF DISSERTATIONS, ARTICLES IN THE DIRECTION OF IMPROVING ECONOMIC RESEARCH, STUDY OF TEXTBOOKS

Within the framework of the "Year of children", the Faculty of Economics and law of Atyrau University named after H. Dosmukhamedov held a training master class for students of the school-Lyceum named after Zhapak Karazhigitov No. 16 of the Atyrau City Department of Education. The master class was attended by students and teachers of the 7th grade.

Theme of the training-master class: "entrepreneurship system and formation of business culture".

The training master class was conducted by Candidate of Economic Sciences Adietova Elmira Mizamgalievna and Master of Economics and business, Senior Lecturer of the Department of Economics Bisembieva Zhanargul Korganyshovna. The purpose of the training – master class is to educate students about the importance of entrepreneurial activity. During the master class, methods of "Magic Numbers", "park of questions", "INSERT", feedback from the audience were used. In the system of a modern market economy, the development of entrepreneurial thinking of students is very important in order to perceive life's difficulties and problems as opportunities and use the acquired knowledge in the daily field of their activities.

At the training master class, the issues of knowledge of the features of the entrepreneurial type of thinking, knowledge of the types of entrepreneurship (B2B, B2C, B2G), understanding the difference between products and services, understanding the importance of entrepreneurship in the development of the state economy were taken as a basis. considered. Today, there is reason to believe that students have developed an understanding of what business is in general, without looking for an answer. This is where the catchphrase comes to mind if you want to be a country, fix your cradle. In order to join the ranks of the developed country, the development of entrepreneurship is a priority. If we say that the future of the state is educated youth, it is clear that it is very desirable for children to study business since school.

At the end of the event, the students of the class gave their suggestions and comments on joint work with the group team. Within the framework of the Scientific School, research work is being carried out, which is financed by state grants and other financial sources.
